

Badminton is a sport for all - a sport enjoyed by millions of children, youth, adults and seniors and elderly participants globally. It is a sport that combines eye hand coordination, power, strength, speed and decision making skills. It is a low impact and non contact sport which played by boys and girls, men and women - singles, doubles and mixed doubles.

Get involved, here at IIT Hyderabad and try the sport. Share all the health and social benefits of badminton and become a part of our badminton community.
